**Note:** This template has been developed as a guide to help businesses develop a COVID-19 specific operational plan as required under the Public Health Order issued on May 1, 2020. It encompasses the criteria that must be part of the required plan. This template may be adopted by many simple businesses, but is not intended to fit all operations. Industries and associations are encouraged and expected to develop plans relevant to their industry. Those may be submitted to [envhealth@ihis.org](mailto:envhealth@ihis.org) for review. All businesses must maintain a copy of their plan on site for an inspector to review at any time the business is in operation.
